

C4-171 Carpet Nosing

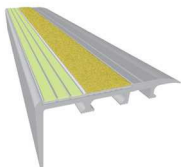

C4-171 Carpet Nosing

The C4-171 Carpet Nosing is designed to clearly define the carpeted step edge and reduce slips and falls in all egress situations.

The 16mm photoluminescent strip is visible for many hours after the lights go out, having been charged by sunlight or artificial light.

The C4-171 Carpet Nosing also has a 21.3mm insert of hard wearing slip resistant silicon carbide.

The aluminium step nosing is fitted onto the edge of carpeted steps to create an aesthetically pleasing edge.
