

F8-111 Flat Nosing

F8-111 Step Nosing

The F8-170 is a bull nosed aluminium step nosing designed to create a highly visible step edge to reduce slips and falls and enhance speed in all situations whether light, dark or dimly lit.

The F8-111 bull nosed aluminium step nosing is fitted onto the edge of the step to create an aesthetically pleasing edge.

The 51mm photoluminescent insert of hard wearing slip resistant silicon carbide is visible for many hours after the lights go out, having been charged from sunlight or artificial light.

The F8-111 can be used on a range of substrates such as concrete, timber, tiles, vinyl, steel and checker plate. Installation is a simple process using fixers (supplied) and glue.

It can also be fitted over steps with an industrial or commercial type carpet (with no underlay) and up to 6mm thick.
