

F9V Flat Nosing

F9V

The F9V series is a 50mm right angled stairnosing for fitting to the edge of hard surfaces, provided with a 37.3mm vinyl insert drilled and countersunk @ 300mm centres with secret fixings.

The nosing comes in 3060mm and 3650mm lengths which can also be cut to custom lengths to suit your dimensions. Offers slip resistant protection to reduce the risk of accidents and injuries. The nosing highlights the leading edge of the stair.

The F9V series can also be fitted over steps with an industrial or commercial type carpet (with no underlay) and up to 6mm thick.

Suitable for internal applications only. The nosing can be easily retro-fitted.

The vinyl insert is available in a range of colours. The standard in-fill colour is black.

BENEFITS	TECHNICAL
